DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claim 11 have been considered but are moot in view of the new ground(s) of rejection. It is noted that applicant argued that the limitations of claim 11 incorporate the allowable limitations of claim 5 but the allowability of claim 5 was based on its combination with original claim 1 and not original claim 11 as applicant has done in drafting amended claim 11.

2. Applicant's arguments, see page 15, filed 6/19/06, with respect to the amendment to claim 1 to overcome the rejection under Thompson (4918578) have been fully considered and are persuasive. The art rejection of claims 1 and 6 has been withdrawn.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 11 is rejected under 35 U.S.C. 102(b) as being anticipated by Hwu et al. (6259713). Hwu et al. shows in Figs 1A and 2 ; a light collection member (20) for collecting irradiated light from a light source (22) having a parabolic light reflection face (26) formed as the inner side face of the hole or groove formed in the light collection portion (20) wherein the parabolic face (26) is formed by moving the parabola in a direction perpendicular to a face formed by the parabola and an axis thereof without changing the shape of the parabola.

Allowable Subject Matter

Claim 1 is allowable. The restriction requirement as set forth in the Office action mailed on 9/12/05 has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 2-4 and 7-10, are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 12-34, are withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

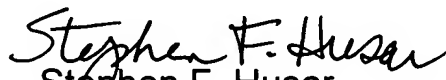

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory

period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
